PROFILE

Structural Steel Detailer with hands-on experience in Tekla Structures and BIM modelling, supported by a Civil Engineering background and site experience. Proven ability to deliver accurate 3D models and fabrication drawings for large-scale international steel projects. Strong understanding of construction drawings, specifications, and coordination with engineers to meet project requirements. Currently seeking a Structural Steel Detailer role in the UK to further develop technical expertise and contribute to project delivery.

TECHNICAL SKILLS

- Tekla Structures (Steel Detailing & 3D Modelling)
 - Revit (BIM Modelling)
 - Fabrication & Erection Drawings
 - BIM & Digital Construction
 - Construction Documentation
 - Microsoft Excel
-

CORE COMPETENCIES

- Structural Steel Detailing
 - BIM Coordination
 - Drawing Interpretation
 - Attention to Detail
 - Team Collaboration
 - Time Management
 - Problem Solving
-

WORK EXPERIENCE

Tekla Structural Steel Detailer

Sayar Technology Services

Aug 2022 – Jan 2024

- Developed accurate 3D steel models using Tekla Structures for fabrication and construction.

- Produced fabrication and erection drawings for 3 large-scale international projects (Spain and Japan).
 - Improved drawing accuracy by carefully reviewing models and identifying missing information and technical issues.
 - Coordinated with engineers and design teams to ensure compliance with project specifications.
 - Delivered models and drawings within tight deadlines, supporting smooth construction progress.
-

BIM Freelancer (Revit – Singapore Project)

Freelance

Apr 2024 – Jul 2024

- Supported a Singapore-based project using Revit (BIM) to develop and update 3D models.
 - Assisted in BIM coordination, ensuring alignment between structural and architectural designs.
 - Delivered high-quality modelling work independently within agreed timelines.
-

Site Engineer

Shwe Engineering & Construction Co., Ltd.

Feb 2020 – Apr 2021

- Supervised construction activities for 4 warehouse projects, ensuring compliance with drawings and safety standards.
 - Conducted site inspections and quality checks to maintain construction standards.
 - Coordinated subcontractors and site teams, supporting efficient workflow and project progress.
 - Assisted in progress reporting and resolving on-site issues to avoid delays.
-

KEY ACHIEVEMENTS

- Contributed to successful delivery of 3 international steel projects by producing accurate Tekla models and fabrication drawings.

- Supported completion of 4 warehouse projects by improving coordination between site teams and project requirements.
 - Delivered BIM modelling support for a Singapore-based project, demonstrating strong adaptability and independent working skills.
-

EDUCATION

MSc Construction Project Management (Work Experience)
Sheffield Hallam University, UK
2025 – Present

Bachelor of Engineering (Civil)
West Yangon Technological University, Myanmar
2018 - 2019

Bachelor of Technology (Civil)
West Yangon Technological University, Myanmar
2013 - 2017

CERTIFICATIONS

Tekla Steel Detailing – Tekla Freelancer Myanmar
Revit (Architecture & Structure) – KSI Engineering
